

Universal, manual radial press for producing pipe pressing joints for all common pressfitting systems.

Pressing joints with plastic and multi-layer composite tubes  $\varnothing$  10–26 mm  
 $\varnothing$   $\frac{3}{8}$ –1"

Complete range of REMS pressing tongs for all common pressfitting systems, see page 142–158.

**REMS Eco-Press – universal up to  $\varnothing$  26 mm.**  
**Secure crimping in seconds.**

### System advantage

Only **one** type of pressing tongs for all REMS radial presses (except REMS Mini-Press ACC) and radial presses of other makes.

All pressing tongs marked by a \* have another connection (**Patent EP 1 223 008**, **Patent US 6,739,172**) and also fit the manual radial press REMS Eco-Press. Thus simple, inexpensive stocking.

### Pressing tongs for all common systems

Complete assortment of REMS pressing tongs for all common pressfitting systems (page 142–158). High-compression pressing tongs in forged and specially hardened steel. Pressing contours of REMS pressing tongs are system-specific and correspond to the respective pressfitting system. Thus perfect system-conformity, safe press jointing.

### Design

Compact, handy, light. Drive unit with short tubular arms only 1.6 kg. Works anywhere, free-hand, overhead, in confined areas. Secure seating of pressing tongs through locking pins. Dividable tubular arms for individual adjustment of leverage to accommodate different force demands of different pressfitting systems.

### Pressing operation

A perfect joint is achieved when pressing tongs close completely. Final-lock-positioning, the pressing jaws remain in a closed position until opening. This way, the perfect pressing joint (completely closed pressing jaws) can be observed.

German Quality Product

### Supply format

**REMS Eco-Press drive unit.** Manual radial press with final-lock-positioning for producing pressing joints of plastic and multi-layer composite tubes  $\varnothing$  10–26 mm,  $\varnothing$   $\frac{3}{8}$ –1". For operating with REMS pressing tongs. With dividable tubular arms. In skin package.
